ACCOUNTS AND PAPERS:

FIFTY VOLUMES.

— (4.) —

NAVY ESTIMATES.

SESSION 1.—5 *February* 1895——6 *July* 1895.

SESSION 2.—12 *August* 1895——5 *September* 1895.

VOL. LXIV.

ACCOUNTS AND PAPERS:

1895.

FIFTY VOLUMES:—CONTENTS OF THE FOURTH VOLUME.

N.B.—*THE Figures at the beginning of the line, correspond with the N° at the foot of each Paper; and the Figures at the end of the line, refer to the MS. Paging of the Volumes arranged for The House of Commons.*

NAVY ESTIMATES.

Navy Estimates:

- ✓ 61. Navy Estimates for the Year 1895-96; with Explanatory Observations by the Financial Secretary, and Explanation of Differences. p. 1
- ✓ 423. Navy Estimates for the Year 1895-96; with Explanatory Observations by the Financial Secretary, and Explanation of Differences. 273

Statement of Excess, 1893-94:

- ✓ 143. Statement of Excess of Expenditure for Navy Services, for the Year 1893-94. 545

Navy (Statement Explanatory of Estimates):

- ✓ [c. 7654.] Statement of First Lord of the Admiralty explanatory of the Navy Estimates, 1895-96. 549

Vote on Account:

- ✓ 343. Estimate showing the several Services for which a Vote on Account is required, for the year ending 31st March 1896. 563

Supplementary Estimate, 1894-95:

- ✓ 94. An Estimate of the further Amount which will be required during the Year ending 31st March 1895, beyond the Sum already provided in the Grants for Navy Services for the Year. 565

Surplus on Vote:

- ✓ 197. Treasury Minute, dated 23rd March 1895, under Section 4 of "The Appropriation Act, 1894," authorising the temporary application of Surpluses on certain Navy Votes of the Year 1894-95 to meet Excesses on certain other Navy Votes of the same Year. 569

Greenwich Hospital and Travers' Foundation :

370. Statement of the Estimated Income and Expenditure of Greenwich Hospital and of Travers' Foundation, for the Year 1895-96. p. 573
25. Accounts of the Receipt and Expenditure of the Capital and of the Income derived from the Lands and other Property held for the benefit of Greenwich Hospital, and the Foundation of Samuel Travers, Esquire, for the Year ended on the 31st March 1894 ; with the Report of the Comptroller and Auditor General thereon.

591

Naval Defence Acts, 1889 and 1893 (Accounts, 1893-94) :

100. Account prepared by the Admiralty, under the provisions of the Naval Defence Acts, 1889 and 1893, showing the Amount of Money provided to meet the Expenditure for the purposes of the Acts, and the Mode in which, and the Amount and Nature of the Securities by which, it was provided, and the Balance of the Money authorised by the Acts to be provided for such Expenditure ; and also the Amount of Money expended for the purposes of the Acts, distinguishing each purpose on which such Money was expended, and the Expenditure on each of the Vessels and its Armament, on the 31st March 1894 ; with the Report of the Comptroller and Auditor General thereon.

619

NAVY ESTIMATES

FOR

THE YEAR

1895-96,

WITH

EXPLANATORY OBSERVATIONS

BY THE

FINANCIAL SECRETARY,

AND

EXPLANATION OF DIFFERENCES.

Programme for Shipbuilding, Repairs, Maintenance, &c. - - - - -	165 to 237

APPENDICES.

No. 1. Statement of the Number and Description of Workmen at the Victualling Yards at Home and Abroad - - - - -	238
No. 2. Statement showing the Numbers and Descriptions of Established and Hired Ratings of the several Subordinate Situations (excluding Police) on the Wages List of the Naval Hospitals and Marine Infirmarys at Home and Abroad - - - - -	239
No. 3. Statement showing the Number and Description of Workmen at the Naval Ordnance Store Stations at Home - - - - -	240
No. 4. Statement apportioning the cost of the Head Office Staff of the Director of Works Department, and the Permanent and Temporary Superintendence at the Outports (including Pensions, &c.) over the Works and Buildings provided under Vote 10 and other Estimates - - - - -	241
No. 5. Statement showing Distribution under Naval Construction and Storekeeping, &c., of Estimated Cost of Works and Buildings at Dockyards at Home and Abroad, with the proportion of Salaries and Pensions - - - - -	242 and 243
No. 6. Statement showing the Total Expenditure provided for each Establishment under the different Sub-Heads of Parts I., II., and III. of Vote 10, Works, Buildings, &c. - - -	244 to 246
No. 7. Miscellaneous Payments and Allowances, Vote 11, Actual Expenditure in the Year 1893-94 - - - - -	247
No. 8. Detailed Statement of Extra Remuneration for Salaried Officers of Naval Establishments provided for under other Votes, &c., than those in which their Ordinary Salaries appear -	248 to 250
No. 9. Statement showing the Cost of the different classes of Vessels (including proportion of Incidental Charges) added in each year to the Fleet, and the estimated Annual Rate of Depreciation - - - - -	251

EXPLANATORY OBSERVATIONS on the NAVY ESTIMATES by the Financial Secretary.

VOTE A.—The following Table shows the growth of numbers during six years.

1890-91.	1891-92.	1892-93.	1893-94.	1894-95.	1895-96.
Numbers.	Numbers.	Numbers.	Numbers.	Numbers.	Numbers.
68,800	71,000	74,100	76,700	83,400	88,850

This increase in 1895-96 includes the addition of 1,421 seamen, and 1,919 engine-room ratings.

Royal Naval Reserves.

VOTE 7.—Provision has been made for considerable additions both of officers and men to the Royal Naval Reserves. For particulars, *see* page 81.

Dockyard Shipbuilding (including Armaments), Naval Defence Acts, 1889 and 1893.

VOTES 8 and 9.—The actual and estimated expenditure under the Naval Defence Acts for the purpose of Dockyard Shipbuilding (*a*), in accordance with the Schedule of the Naval Defence Act, 1889, and for the purpose of the armament of the Dockyard Vessels, is as follows :—

EXPENDITURE.	Shipbuilding.	Armaments.	TOTAL.
	Vote 8. (<i>a</i>)	Vote 9.	
	£.	£.	£.
Actual Expenditure to 31st March 1894	9,525,488	2,168,828	11,694,316
Anticipated Expenditure, 1894-95 -	308,223	239,172	547,395
ESTIMATED TOTAL - - - £.	9,833,711	2,408,000	12,241,711
Statutory Limit (Naval Defence Act, 1889) - - - - -	8,650,000	2,850,000	11,500,000
Amended Statutory Limit (Naval Defence Act, 1893) - - - - -	10,000,000	2,850,000	12,850,000
Estimated Difference between) Amended Limit and Expenditure) £.	166,289	442,000	608,289
	Less than Limit.	Less than Limit.	Less than Limit.

(*a*) This includes completing for sea in the Dockyards the contract vessels (Naval Defence Act, 1889, Section 1 (3 *b*)).

In addition to the above expenditure under the Acts, the sum of 1,924,472*l.* was spent under the proviso of Sub-section 1 of Section 3 of the Naval Defence Act, 1889, in the years 1889-90 to 1893-94, in "completing for sea the vessels not mentioned in the Schedule to the Act, which were already begun before" 1st April 1889. The statutory limit of 10,000,000*l.* does not apply to expenditure on these Old Programme Vessels.

Contract Shipbuilding (including Armaments), Naval Defence Act, 1889.

The cost of these vessels and of their armaments is not provided in the Navy Estimates, but is met out of the charge of 1,428,571*l.* made annually on the Consolidated Fund during the seven years ending 31st March 1896.

The account for these vessels stands as follows :—

	Shipbuilding.	Armaments.	TOTAL.
	£.	£.	£.
Actual Expenditure to 31st March 1894 - - - - -	8,302,472	1,671,837	9,974,309
Anticipated Expenditure in 1894-95	29,365	3,432	32,797
TOTAL - - - £.	8,331,837	1,675,269	10,007,106

It is anticipated that the excess of 7,106*l.* over the statutory limit of 10,000,000*l.* will disappear when the charges for Armament are revised, and finally distributed between Navy Votes and the Special Fund.

Further Programme, *i.e.*, Dockyard and Contract Shipbuilding (including Armaments) not under Naval Defence Act, 1889.

	Shipbuilding.	Armaments.	TOTAL.
	£.	£.	£.
Actual Expenditure :—			
1892-93 - - - - -	118,891	12,000	130,891
1893-94 - - - - -	919,450	118,000	1,037,450
Anticipated Expenditure in 1894-95 -	(a) 4,333,771	386,000	4,719,771
Estimated Expenditure in 1895-96 -	5,393,642	730,000	6,123,642
£.	10,765,754	1,246,000	12,011,754

The Naval Defence Acts, 1889 and 1893, expire on 31st March 1895 ; consequently the aggregate expenditure upon New Construction during 1895-96 is provided for in these Estimates. See page 83.

20 February 1895.

UGHTRED J. KAY-SHUTTLEWORTH.

(a) It is estimated that the Programme expenditure (per Expense Accounts) will be 4,188,557*l.*, *vide* page 175, to which has been added the sum of 145,214*l.*, paid as advances on Transferable Gun Mountings in course of manufacture. These mountings will not be delivered until subsequent years, when their value will be charged to ships in the Expense Accounts.

EXPLANATIONS OF DIFFERENCES between the Numbers and Amounts proposed in the NAVY ESTIMATES for 1895-96, and the Numbers and Amounts VOTED for 1894-95.

VOTE A.

Numbers Voted, 1894-95	-	-	-	-	-	83,400
Numbers Proposed for 1895-96	-	-	-	-	-	88,850
INCREASE	-	-	-	-	-	5,450

Composed of, viz. :—

167	Commissioned Officers.
20	Subordinate Officers.
98	Warrant Officers.
1,500	Seaman Class Men.
308	Artizans.
1,927	Engine Room Ratings.
330	Miscellaneous Ratings.
1,100	Boys.
5,450	

VOTE 1.

WAGES, &c. OF OFFICERS, SEAMEN AND BOYS, COASTGUARD, AND ROYAL MARINES.

APPARENT INCREASE	-	-	-	-	-	£. 215,000
REAL INCREASE	-	-	-	-	-	£. 214,760

Increase principally due to provision for additional numbers for the Fleet, shown under Vote A., and to variations in the several Rates of Pay and Allowances.

VOTE 2.

VICTUALLING AND CLOTHING FOR THE NAVY.

APPARENT DECREASE	-	-	-	-	-	£. 35,000
REAL DECREASE	-	-	-	-	-	£. 31,000

The extra cost of the increased numbers to be borne is more than met by a reduction in prices, and the provision for Ships of Fleet Reserve made in 1894-95 not being required in 1895-96.

VOTE 3.

MEDICAL ESTABLISHMENTS AND SERVICES.

INCREASE	-	-	-	-	-	£. 7,500
----------	---	---	---	---	---	----------

Increased provision for Wages, Provisions, Stores, Subsistence at Sick Quarters, &c., principally arising from increased numbers in the Fleet.

 Explanations of Differences—*continued*.

VOTE 4.

MARTIAL LAW.

No variation.

VOTE 5.

EDUCATIONAL SERVICES.

APPARENT INCREASE	-	-	-	-	-	£. 300
REAL DECREASE	-	-	-	-	-	£. 467

More money has been provided for Training of Naval Cadets and Engineer Students; on the other hand, there is a saving on the Educational Staff of the Fleet, and larger contributions expected from the parents of Naval Cadets and Engineer Students.

VOTE 6.

SCIENTIFIC SERVICES.

DECREASE	-	-	-	-	-	£. 200
----------	---	---	---	---	---	--------

There is an increase in the cost of the Royal Observatory and the Observatory at the Cape of Good Hope, and in expenses of preparing Charts. These are more than met by a saving on Coast and other Surveys, by increased receipts for sale of Charts, and the proportion of the Subsidy to be paid by the Queensland Government in connection with the Survey of the Coast of that Colony.

VOTE 7.

ROYAL NAVAL RESERVES.

INCREASE	-	-	-	-	-	£. 9,800
----------	---	---	---	---	---	----------

Increase in number of Officers to undergo 12 months' Training on board Her Majesty's Ships and courses of Gunnery and Torpedo Training, also increase in numbers on the Active List, additional Firemen, increased attendance of Royal Naval Reserve Men and Seamen Pensioners at Drill, and provision for pay, &c., of Firemen to be embarked during Manœuvres, reduced by less provision being taken for the expense of embarking Second Class Men Afloat in District Ships, and Men for periods of Six months' Training on board Her Majesty's Ships.

VOTE 8.

SHIP-BUILDING, REPAIRS, MAINTENANCE, &c.

SECTION I.—PERSONNEL.

INCREASE	-	-	-	-	-	£. 38,200
----------	---	---	---	---	---	-----------

Principally on Wages at Home and Abroad to meet increased Work in Programme. There are decreases in Salaries at Home and Abroad, and in Wages, &c., of Police Abroad.

 Explanations of Differences—*continued.*

VOTE 8.

SHIP-BUILDING, REPAIRS, MAINTENANCE, &c.—*continued.*

SECTION II.—MATÉRIEL.

APPARENT INCREASE	-	-	-	-	-	£. 361,000.
REAL INCREASE	-	-	-	-	-	£. 357,000.

Increased provision for Stores, especially metals, including Armour, and a reduction in the Appropriation to be obtained by Sale of Old Ships. There is, however, a considerable decrease for Coal.

SECTION III.—CONTRACT WORK.

APPARENT INCREASE	-	-	-	-	-	£. 495,800.
REAL INCREASE	-	-	-	-	-	£. 566,436.

Increased provision generally, especially for Hulls of Ships building by Contract and Gun Mountings. The Vote would have been much larger, but for a reduction under the Sub-Head for Propelling Machinery, and for the absence of any provision for Interest on Advances under the Naval Defence Act.

VOTE 9.

NAVAL ARMAMENTS.

INCREASE	-	-	-	-	-	£. 310,000.
----------	---	---	---	---	---	-------------

Increased expenditure as regards Wages of Artificers and Labourers employed in Torpedo Stores, and on Guns, Projectiles, Ammunition, and Small Arms.

VOTE 10.

WORKS, BUILDINGS, AND REPAIRS AT HOME AND ABROAD.

DECREASE	-	-	-	-	-	£. 103,000.
----------	---	---	---	---	---	-------------

Provision will be made in a Bill to be submitted to Parliament for the expenditure upon uncompleted Works which were included in the Estimates of 1894-95. For details, *see* page 125. This will account for the large decrease in the Vote, mainly under Sub-Head B. There are increases under other Sub-Heads.

VOTE 11.

MISCELLANEOUS EFFECTIVE SERVICES.

APPARENT INCREASE	-	-	-	-	-	£. 3,000.
REAL INCREASE	-	-	-	-	-	£. 3,510.

Increased provision for Piloting, &c., Her Majesty's Ships; Compensation for Damages; Light-houses, &c.; and Water Police; reduced by smaller provision for Passage Money, Gratuities for Special Services and Advertisements.

 Explanations of Differences—*continued*.

 V O T E 12.

ADMIRALTY OFFICE.

 INCREASE - - - - - £. 6,000.

Principally due to increased Staff required in the Department of the Director of Works, promotion of Second Division Clerks to Staff Clerkships, additional Supplementary Clerks, and increased provision for Transport Officers in London and at the Outports.

 V O T E 13.

HALF PAY, RESERVED AND RETIRED PAY.

 INCREASE - - - - - £. 4,300.

Increased provision for Half-pay, Reserved and Retired Pay, and Gratuities to Officers on Retirement, reduced by smaller provision for Commutations.

 V O T E 14.

NAVAL AND MARINE PENSIONS, GRATUITIES, AND COMPASSIONATE ALLOWANCES.

 INCREASE - - - - - £. 17,500.

Principally arising from increased provision for Pensions to Seamen. There is a Decrease in the anticipated charges for Pensions to Widows of Naval and Marine Officers.

 V O T E 15.

CIVIL PENSIONS AND GRATUITIES.

 INCREASE - - - - - £. 4,700.

Principally due to increase in Superannuation Allowances to Artificers, &c.

 V O T E 16.

ADDITIONAL NAVAL FORCE FOR SERVICE IN AUSTRALASIAN WATERS.

 No variation.

(a) Salary of successor will be that of an Assistant Accountant General, with an allowance of 200l. as Deputy Accountant General.

(b) For extra remuneration paid out of other Votes, see Appendix No. 8, p. 248.

(c) Present holders rise to maximum of 650l. as former Senior Clerks. These appointments are temporary only, pending the provision of new offices for the Department.

(d) Four temporarily in lieu of Staff Clerks. Some of the present holders rise to maximum salaries of 600l. or 650l. as former Assistant Superintending Clerks or Senior Clerks.

(e) One will be absorbed on the occurrence of the next vacancy in the Higher Division.

(f) Eight Admiralty and Old Scale Writers are at present employed in lieu of Supplementary Clerks. They will be replaced as vacancies occur.

(g) The actual increase in the number of the permanent staff is 12 only, eight Supplementary Clerks having replaced a similar number of Boy Clerks provided for under Sub-head B.

(h) Provided last year in Sub-head B.

(i) This scale of pay applies only to those now in the Service, and will be subject to alteration on new appointments to the Establishment taking place.

(a) Some of these situations are supernumerary, and will be transferred to Hired List as vacancies occur.
 (b) Including Labourers (Boats' Crews).
 (c) Hired Nurses are entered and discharged according to exigencies of the service. These numbers therefore represent the full year's wages provided for their employment, and not necessarily the actual numbers borne all the year round.
 (d) Under this Head are included certain Ratings held by Men borne on the strength of their Divisions.

No. 8. Detailed Statement of Extra Remuneration for Salaried Officers of Naval Establishments provided for under other Votes, &c., than those in which their Ordinary Salaries appear -	248 to 250
No. 9. Statement showing the Cost of the different classes of Vessels (including proportion of Incidental Charges) added in each year to the Fleet, and the estimated Annual Rate of Depreciation - - - - -	251

EXPLANATORY OBSERVATIONS on the NAVY ESTIMATES by the Financial Secretary.

VOTE A.—The following Table shows the growth of numbers during six years.

1890-91.	1891-92.	1892-93.	1893-94.	1894-95.	1895-96.
Numbers.	Numbers.	Numbers.	Numbers.	Numbers.	Numbers.
68,800	71,000	74,100	76,700	83,400	88,850

This increase in 1895-96 includes the addition of 1,421 seamen, and 1,919 engine-room ratings.

Royal Naval Reserves.

VOTE 7.—Provision has been made for considerable additions both of officers and men to the Royal Naval Reserves. For particulars, *see* page 81.

Dockyard Shipbuilding (including Armaments), Naval Defence Acts, 1889 and 1893.

VOTES 8 and 9.—The actual and estimated expenditure under the Naval Defence Acts for the purpose of Dockyard Shipbuilding (*a*), in accordance with the Schedule of the Naval Defence Act, 1889, and for the purpose of the armament of the Dockyard Vessels, is as follows :—

EXPENDITURE.	Shipbuilding.	Armaments.	TOTAL.
	Vote 8. (<i>a</i>)	Vote 9.	
	£.	£.	£.
Actual Expenditure to 31st March 1894	9,525,488	2,168,828	11,694,316
Anticipated Expenditure, 1894-95 -	308,223	239,172	547,395
ESTIMATED TOTAL - - - £.	9,833,711	2,408,000	12,241,711
Statutory Limit (Naval Defence Act, 1889) - - - - -	8,650,000	2,850,000	11,500,000
Amended Statutory Limit (Naval Defence Act, 1893) - - - - -	10,000,000	2,850,000	12,850,000
Estimated Difference between Amended Limit and Expenditure (£.	166,289	442,000	608,289
	Less than Limit.	Less than Limit.	Less than Limit.

(*a*) This includes completing for sea in the Dockyards the contract vessels (Naval Defence Act, 1889, Section 1 (3 *b*)).

In addition to the above expenditure under the Acts, the sum of 1,924,472*l.* was spent under the proviso of Sub-section 1 of Section 3 of the Naval Defence Act, 1889, in the years 1889-90 to 1893-94, in "completing for sea the vessels not mentioned in the Schedule to the Act, which were already begun before" 1st April 1889. The statutory limit of 10,000,000*l.* does not apply to expenditure on these Old Programme Vessels.

Contract Shipbuilding (including Armaments), Naval Defence Act, 1889.

The cost of these vessels and of their armaments is not provided in the Navy Estimates, but is met out of the charge of 1,428,571*l.* made annually on the Consolidated Fund during the seven years ending 31st March 1896.

The account for these vessels stands as follows :—

	Shipbuilding.	Armaments.	TOTAL.
	£.	£.	£.
Actual Expenditure to 31st March 1894 - - - - -	8,302,472	1,671,837	9,974,309
Anticipated Expenditure in 1894-95	29,365	3,432	32,797
TOTAL - - - £.	8,331,837	1,675,269	10,007,106

It is anticipated that the excess of 7,106*l.* over the statutory limit of 10,000,000*l.* will disappear when the charges for Armament are revised, and finally distributed between Navy Votes and the Special Fund.

Further Programme, *i.e.*, Dockyard and Contract Shipbuilding (including Armaments) not under Naval Defence Act, 1889.

	Shipbuilding.	Armaments.	TOTAL.
	£.	£.	£.
Actual Expenditure :—			
1892-93 - - - - -	118,891	12,000	130,891
1893-94 - - - - -	919,450	118,000	1,037,450
Anticipated Expenditure in 1894-95 - (a)	4,333,771	386,000	4,719,771
Estimated Expenditure in 1895-96 -	5,393,642	730,000	6,123,642
£.	10,765,754	1,246,000	12,011,754

The Naval Defence Acts, 1889 and 1893, expire on 31st March 1895; consequently the aggregate expenditure upon New Construction during 1895-96 is provided for in these Estimates. See page 83.

20 February 1895.

UGHTRED J. KAY-SHUTTLEWORTH.

(a) It is estimated that the Programme expenditure (per Expense Accounts) will be 4,188,557*l.*, *vide* page 175, to which has been added the sum of 145,214*l.*, paid as advances on Transferable Gun Mountings in course of manufacture. These mountings will not be delivered until subsequent years, when their value will be charged to ships in the Expense Accounts.

EXPLANATIONS OF DIFFERENCES between the Numbers and Amounts proposed in the NAVY ESTIMATES for 1895-96, and the Numbers and Amounts VOTED for 1894-95.

VOTE A.

Numbers Voted, 1894-95	-	-	-	-	-	83,400
Numbers Proposed for 1895-96	-	-	-	-	-	88,850
INCREASE	-	-	-	-	-	5,450

Composed of, viz. :—

167	Commissioned Officers.
20	Subordinate Officers.
98	Warrant Officers.
1,500	Seaman Class Men.
308	Artizans.
1,927	Engine Room Ratings.
330	Miscellaneous Ratings.
1,100	Boys.

5,450

VOTE 1.

WAGES, &c. OF OFFICERS, SEAMEN AND BOYS, COASTGUARD, AND ROYAL MARINES.

APPARENT INCREASE	-	-	-	-	-	£. 215,000
REAL INCREASE	-	-	-	-	-	£. 214,760

Increase principally due to provision for additional numbers for the Fleet, shown under Vote A., and to variations in the several Rates of Pay and Allowances.

VOTE 2.

VICTUALLING AND CLOTHING FOR THE NAVY.

APPARENT DECREASE	-	-	-	-	-	£. 35,000
REAL DECREASE	-	-	-	-	-	£. 31,000

The extra cost of the increased numbers to be borne is more than met by a reduction in prices, and the provision for Ships of Fleet Reserve made in 1894-95 not being required in 1895-96.

VOTE 3.

MEDICAL ESTABLISHMENTS AND SERVICES.

INCREASE	-	-	-	-	-	£. 7,500
----------	---	---	---	---	---	----------

Increased provision for Wages, Provisions, Stores, Subsistence at Sick Quarters, &c., principally arising from increased numbers in the Fleet.

 Explanations of Differences—*continued*.

VOTE 4.

MARTIAL LAW.

No variation.

VOTE 5.

EDUCATIONAL SERVICES.

APPARENT INCREASE	-	-	-	-	-	£. 300
REAL DECREASE	-	-	-	-	-	£. 467

More money has been provided for Training of Naval Cadets and Engineer Students; on the other hand, there is a saving on the Educational Staff of the Fleet, and larger contributions expected from the parents of Naval Cadets and Engineer Students.

VOTE 6.

SCIENTIFIC SERVICES.

DECREASE	-	-	-	-	-	£. 200
----------	---	---	---	---	---	--------

There is an increase in the cost of the Royal Observatory and the Observatory at the Cape of Good Hope, and in expenses of preparing Charts. These are more than met by a saving on Coast and other Surveys, by increased receipts for sale of Charts, and the proportion of the Subsidy to be paid by the Queensland Government in connection with the Survey of the Coast of that Colony.

VOTE 7.

ROYAL NAVAL RESERVES.

INCREASE	-	-	-	-	-	£. 9,800
----------	---	---	---	---	---	----------

Increase in number of Officers to undergo 12 months' Training on board Her Majesty's Ships and courses of Gunnery and Torpedo Training, also increase in numbers on the Active List, additional Firemen, increased attendance of Royal Naval Reserve Men and Seamen Pensioners at Drill, and provision for pay, &c., of Firemen to be embarked during Manœuvres, reduced by less provision being taken for the expense of embarking Second Class Men Afloat in District Ships, and Men for periods of Six months' Training on board Her Majesty's Ships.

VOTE 8.

SHIP-BUILDING, REPAIRS, MAINTENANCE, &c.

SECTION I.—PERSONNEL.

INCREASE	-	-	-	-	-	£. 38,200
----------	---	---	---	---	---	-----------

Principally on Wages at Home and Abroad to meet increased Work in Programme. There are decreases in Salaries at Home and Abroad, and in Wages, &c., of Police Abroad.

 Explanations of Differences—*continued*.

VOTE 8.

SHIP-BUILDING, REPAIRS, MAINTENANCE, &c.—*continued*.

SECTION II.—MATÉRIEL.

APPARENT INCREASE	-	-	-	-	-	£. 361,000.
REAL INCREASE	-	-	-	-	-	£. 357,000.

Increased provision for Stores, especially metals, including Armour, and a reduction in the Appropriation to be obtained by Sale of Old Ships. There is, however, a considerable decrease for Coal.

SECTION III.—CONTRACT WORK.

APPARENT INCREASE	-	-	-	-	-	£. 495,800.
REAL INCREASE	-	-	-	-	-	£. 566,436.

Increased provision generally, especially for Hulls of Ships building by Contract and Gun Mountings. The Vote would have been much larger, but for a reduction under the Sub-Head for Propelling Machinery, and for the absence of any provision for Interest on Advances under the Naval Defence Act.

VOTE 9.

NAVAL ARMAMENTS.

INCREASE	-	-	-	-	-	£. 310,000.

Increased expenditure as regards Wages of Artificers and Labourers employed in Torped Stores, and on Guns, Projectiles, Ammunition, and Small Arms.

VOTE 10.

WORKS, BUILDINGS, AND REPAIRS AT HOME AND ABROAD.

DECREASE	-	-	-	-	-	£. 103,000.

Provision will be made in a Bill to be submitted to Parliament for the expenditure upon uncompleted Works which were included in the Estimates of 1894-95. For details, *see* page 125. This will account for the large decrease in the Vote, mainly under Sub-Head B. There are increases under other Sub-Heads.

VOTE 11.

MISCELLANEOUS EFFECTIVE SERVICES.

APPARENT INCREASE	-	-	-	-	-	£. 3,000.
REAL INCREASE	-	-	-	-	-	£. 3,510.

Increased provision for Piloting, &c., Her Majesty's Ships; Compensation for Damages; Light-houses, &c.; and Water Police; reduced by smaller provision for Passage Money, Gratuities for Special Services and Advertisements.

 Explanations of Differences—*continued.*

VOTE 12.

ADMIRALTY OFFICE.

INCREASE - - - - - £. 6,000.

Principally due to increased Staff required in the Department of the Director of Works, promotion of Second Division Clerks to Staff Clerkships, additional Supplementary Clerks, and increased provision for Transport Officers in London and at the Outports.

VOTE 13.

HALF PAY, RESERVED AND RETIRED PAY.

INCREASE - - - - - £. 4,300.

Increased provision for Half-pay, Reserved and Retired Pay, and Gratuities to Officers on Retirement, reduced by smaller provision for Commutations.

VOTE 14.

NAVAL AND MARINE PENSIONS, GRATUITIES, AND COMPASSIONATE ALLOWANCES.

INCREASE - - - - - £. 17,500.

Principally arising from increased provision for Pensions to Seamen. There is a Decrease in the anticipated charges for Pensions to Widows of Naval and Marine Officers.

VOTE 15.

CIVIL PENSIONS AND GRATUITIES.

INCREASE - - - - - £. 4,700.

Principally due to increase in Superannuation Allowances to Artificers, &c.

VOTE 16.

ADDITIONAL NAVAL FORCE FOR SERVICE IN AUSTRALASIAN WATERS.

No variation.

(a) Salaries of Officers and Clerks at the Establishments Abroad are generally in occupation of Official Residences or Quarters, or in receipt of Allowance in lieu.

(b) Borne on the books of H.M.S. "Bramble."

(c) The stores and cash at present in this Officer's charge to be transferred, on a vacancy, to the principal Medical Officer, and a local writer to be entered for clerical duties.

Note.—There are also Surgeons borne on the books of Her Majesty's Ships "Victory" and "Vivid," in receipt of Sea Pay and Allowances, whose services are available for the Hospitals at Haslar and Plymouth, pending appointment to Sea-going Ships.

(a) Some of these situations are supernumerary, and will be transferred to Hired List as vacancies occur.

(b) Including Labourers (Boats' Crews).

(c) Hired Nurses are entered and discharged according to exigencies of the service. These numbers therefore represent the full year's wages provided for their employment, and not necessarily the actual numbers borne all the year round.

(d) Under this Head are included certain Ratings held by Men borne on the strength of their Divisions.

OF

EXCESS OF EXPENDITURE

FOR

NAVY SERVICES

For the Year 1893-94.

	£.	s.	d.
Sum required to be Voted in order to defray the Excess of Net Expenditure beyond the Ordinary Navy Grants, as shown overleaf	49,519	9	2

Forty-nine Thousand Five Hundred and Nineteen Pounds Nine Shillings and Two Pence.

SPENCER.

EDMUND ROBERTSON.

Admiralty,
5 March 1895. }

UGHTRED J. KAY-SHUTTLEWORTH,
Secretary.

STATEMENT OF EXCESS.

STATEMENT of EXCESS of EXPENDITURE for NAVY SERVICES for the Year 1893-94.

	£.	s.	d.
EXCESS of Net Expenditure beyond the Ordinary Navy Grants for the Year ended 31st March 1894 - - - - -	49,519	9	2

The difference of 16,927 *l.* 2 *s.* 4 *d.* between this amount and that of 66,446 *l.* 11 *s.* 6 *d.*, shown as the Net Excess on the Navy Appropriation Account, arises from the adjustments required between that Account and the Naval Defence Account for 1893-94, and is explained in paragraph 30 of the Report of the Comptroller and Auditor General on the former Account.

The deficit is composed as follows, viz. :—

	£.	s.	d.
Deficit on Gross Votes - - - - -	12,823	13	1
„ Appropriations in Aid - - - - -	36,695	16	1
TOTAL - - -	£. 49,519	9	2

The deficit on the Gross Votes is almost entirely due to the large amount necessary to be written off as “Balances Irrecoverable,” viz. : 12,490 *l.* 10 *s.* 6 *d.*, nearly the whole of which was on account of money lost in the “Victoria.” It was hoped that this sum would have been met by savings under other Votes, which, however, were not realised.

The deficit on Appropriations in Aid was the portion of the contribution of the Indian Government on account of Ships in Indian Waters, which could not be met by savings. The non-payment by India amounted to 67,000 *l.*

STATEMENT

EXPLANATORY OF

NAVY ESTIMATES, 1895-96.

The Navy Estimates for 1895-96 amount to a net total of £18,701,000, or £1,334,900 more than the sum voted for 1894-95, and £4,460,900 more than the sum voted for 1893-94.

In my Statement of last year I explained the reasons for the large increase of the Estimates for 1894-95. The continued increase this year is due to the same causes. In regard to New Construction and Armaments, the steady progress of the ships laid down in 1894-95, and the proposed commencement of the new ships forming part of the Five Years' Programme undertaken last year, and which has in no respect been enlarged, require increased expenditure. When it is considered that in addition to these requirements it is necessary to find more men to man the larger and more numerous ships of the present Fleet, to make larger docks for their accommodation, and safer harbours for their protection, and also to improve and develop our Naval Reserves, it is not surprising that the demands on the Estimates are serious and large.

During the early part of this year it was found desirable for the proper and economical administration of the Dockyards to provide, at a much earlier date than was originally anticipated, certain stores required for the ships under construction. Orders have been given for the manufacture in this financial year of additional supplies of armour, steel plates, angles and other shipbuilding stores.

The increased number and larger size of ships in commission on the China and Mediterranean Stations and elsewhere have further occasioned the shipment to depôts abroad of large quantities of coal and reserve warlike stores. It was desirable to replenish without loss of time the depôts at home from which these stores had been shipped.

The Admiralty have also been alive to the importance of taking immediate steps to convert the ordinary 6-inch and smaller B.L. guns into quick-firing guns.

The favourable state of the market rendered the early placing of these orders advantageous from an economical point of view, and the Treasury having concurred in the presentation of a Supplementary Estimate to cover expenditure for these services in excess of the provision made in the Estimates of last year, details will shortly be laid on the table of the House of Commons.

NUMBERS.

The number of Officers, Seamen, Boys, Coastguard, and Royal Marines voted for 1894-95 was 83,400. It is satisfactory to find that this total number has been almost attained at the present time, the actual number borne on the 1st February being 82,923. During the course of the year 6,223 men have been added, comprising among others—

1,589 Seamen class,
162 Artisans,
281 Engine Room Artificers,
2,519 Stokers,
1,169 Boys, and
453 Marines.

Early in the year it appeared likely that the proposal to recruit 800 men from the Mercantile Marine and other sources would not be successful, and steps were taken to commission a cruising Training Ship (*Northampton*) for the purpose of receiving boys on board at an age later than that required for entry into the permanent Boys' Training Ships. These boys will pass into the Service after six months or more of training. In

the course of this service the *Northampton* cruised to different parts of the coasts of Great Britain and Ireland.

This experiment succeeded in obtaining a sufficient number of boys to complete the complement allotted to the ship, and as far as can be judged was most satisfactory; it cannot, however, be deemed complete until after the boys, who have now commenced joining the Fleet, have been tried afloat. It is proposed to continue the work of the *Northampton* this year, and not to revert to the proposal of recruiting men from the Mercantile Marine.

The question of the number of Officers available for service both in peace and in war, and the flow of promotion in the executive lists of the Navy, has called for the serious attention of the Board. The present system of promotion and retirement was established by Order in Council in 1870, but from time to time modifications have been made, and it had become indispensable to make a searching enquiry into the operation of the scheme, having regard to the present requirements of the Navy. For this purpose a Committee was appointed under the presidency of Admiral Sir A. Hoskins, and their report is now under the consideration of the Board and of the Treasury.

The number of cadets in the *Britannia* has been raised from 240 to 270 during the year. This number will be further supplemented by an increase in the numbers of nominations given to the *Conway* and *Worcester*. It is anticipated that the necessarily slow and gradual increase in the number of young Officers trained in the *Britannia* will, in the course of time, place the active list of the Navy on a satisfactory footing; but as this end cannot be reached for several years, the attention of the Admiralty is seriously engaged in the consideration of the best means of supplying the immediate requirements of the Service.

The numbers proposed for this year in Vote A are 88,850, an increase of 5,450 over last year.

The Chief Gunners, Boatswains and Carpenters will be increased by 14, and Warrant Officers by 100.

40 Assistant Engineers for temporary service will be entered to supplement the entries on the permanent list.

It is proposed to add 174 Chief and Engine Room Artificers to the present numbers, raising the total for the year to 2,134, and also to increase the number of stokers by 1,750, bringing the total number of this rating to 15,232.

There will be a net increase among the Seamen-class Men of 1,500, including about 500 expected to be obtained from the *Northampton*. The Boys (Service and under training) will be increased by 1,100.

NEW CONSTRUCTION.

SHIPBUILDING UNDER THE NAVAL DEFENCE ACT IN 1894-95.

The five Second Class Cruisers and four Torpedo Gunboats which I referred to as still incomplete at the close of the last Financial Year will have been all completed by the end of the present Financial Year, thus terminating the Programme of the Naval Defence Act of 1889. The limit of five years originally fixed for the completion of the ships has been exceeded in regard to these vessels, the authority of an Act of Parliament having been obtained for the purpose.

OTHER SHIPBUILDING IN 1894-95.

The Programme of New Construction, of which I gave a sketch in my Statement of last year, has been carried out in most of its main features, although under circumstances of considerable difficulty, owing to labour disputes in the private trade, and to very severe weather at the commencement of 1895.

Battleships.

The construction of the *Majestic* and *Magnificent* has been advanced more rapidly than that of any preceding battleships. Each of these vessels was floated out of dock within twelve months of the date of laying the keel. At the time they left the dock nearly the whole of the hull-armour was in place and the work of fitting had been taken in hand.

These results have been achieved by great exertion, skill, and perseverance on the part of the Superintendents, Officers and men of Portsmouth and Chatham Dockyards, and without interference with the ordinary working of the dockyards.

The *Renown*, building at Pembroke, will be launched early in 1895-96. Before she is launched this vessel will be practically complete as regards the hull-structure and armour protection, while the work of internal fitting will also be in a forward state.

Of the seven first-class battleships included in the new Programme commenced in 1894-95, five are building in the dockyards and two by contract.

The vessels on which most progress has been made are the *Prince George* at Portsmouth and the *Victorious* at Chatham, both of which it is anticipated will be launched during next summer.

The *Illustrious* at Chatham and the *Cæsar* at Portsmouth were only intended to be in a very early stage of construction at the close of the financial year 1894-95. A considerable amount of preparatory work has been done for them, and good progress is contemplated in the coming financial year.

The *Hannibal*, building at Pembroke, has been advanced to the extent contemplated in the Estimates.

The *Mars*, building by Messrs. Laird at Birkenhead, has also been pushed forward very rapidly by the contractors. The *Jupiter*, building by Messrs. Thomson on the Clyde, has been advanced as fast as circumstances permitted; but progress has been greatly hindered by the Scotch coal strike, which also affected all contracts for new ships and machinery placed in the Clyde district. Since the strike ended, the progress of work on the *Jupiter* has been continuous.

Cruisers.

The first-class cruisers, *Powerful* and *Terrible*, building by contract at Barrow and on the Clyde, have been very rapidly advanced during 1894-95, and it is anticipated that they will be launched during next summer.

The building of the three second class cruisers of the *Talbot* class in the dockyards has progressed satisfactorily during the year, and it is proposed to complete them early in the financial year 1896-97.

Six other vessels of the class, included in the new Programme, are building by contract, four of them on the Clyde and two at Barrow. Progress on the former has been retarded by the recent coal strike, but it is now anticipated that no further delays will occur.

Four sloops are in course of construction in the dockyards, and it is proposed to complete them in the autumn of this year.

Torpedo-boat Destroyers.

In my statement of last year it was explained that 42 vessels of this class had been ordered by contract, and that it had been made a condition in these contracts that the vessels should be completed in the financial year 1894-95.

The leading firms of shipbuilders and engineers who undertook the construction of these vessels have, owing to various circumstances, been unable to fulfil this condition. Some have been prejudicially affected by labour difficulties; and in all cases the novelty of the designs, and the very high speed demanded, have involved the expenditure of considerably greater time in construction and trials than had been anticipated. In the case of the vessels which have completed their trials the contract speeds have been obtained, and in some cases materially exceeded. Exhaustive experimental trials made at sea with some of the vessels first delivered have shown that the intentions of the designs will be realised in the class, and that they will be admirably adapted to the special service for which they are required.

It is now anticipated that at the close of the year 1894-95, one-third of the total number of vessels will have completed their trials and either have been delivered or be practically ready for service, but the severe weather in January and February makes an exact statement impossible.

In the course of the first two months of the new financial year a considerable proportion of the remaining vessels of the class will be completed, and the others will be approaching completion.

About £1,200,000 was provided for these vessels in the Estimates for 1894-95 : and it is now anticipated that nearly £940,000 will be earned : a result which indicates sufficiently the advanced condition of the vessels still unfinished.

NEW PROGRAMME.

(SECOND YEAR, 1895-96.)

In the coming financial year it is proposed to commence four first-class cruisers, four second-class cruisers, two third-class cruisers, and twenty torpedo boat destroyers.

First-class Cruisers.

Three of the first-class cruisers and all the torpedo boat destroyers are to be built by contract. The remainder of the vessels will be laid down in the dockyards.

The complete designs for the first-class cruisers, which will be improved *Blenheims*, are not yet finally settled, and the details cannot, therefore, be furnished at present.

Second-class Cruisers.

The second-class cruisers will have the following principal dimensions :—

Length ...	...	...	...	...	...	320 feet.
Breadth	...	...	...	...	...	57 "
Displacement	...	...	...	...	...	about 5,750 tons.

The armament will be very nearly the same as that of the *Talbot* class.

The protective arrangements are also similar, although in some features the protection will be increased in the new vessels.

It is proposed that they shall be fitted with water tube boilers giving 10,000 horse-power with natural draught, the corresponding speed being $18\frac{1}{2}$ to 19 knots.

Third-class Cruisers.

The third-class cruisers may be described as improved *Barhams* with water tube boilers. Their principal dimensions will be—

Length ...	...	...	...	...	...	300 feet.
Breadth ...	...	...	...	...	...	36 feet 6 inches.
Displacement	...	...	...	...	...	about 2,100 tons.

They will resemble the *Barhams* in the arrangements of their protective deck, but will have greater freeboard and much larger coal capacity.

Their armament will consist of eight 4-inch quick-firing guns, eight 3-pounders, and smaller guns. They will also have a torpedo armament similar to that of the *Barham*.

The vessels of the *Barham* class are fitted with groups of locomotive boilers, which have not proved so satisfactory as was anticipated. The new vessels will be fitted with water-tube boilers of approved types, such as have been already used successfully in torpedo gunboats, and in torpedo boat destroyers.

The maximum horse-power will be 7,000, the corresponding speed being about 20 knots.

Torpedo Boat Destroyers.

In the case of the torpedo boat destroyers, to be laid down during the year, a still higher speed will be demanded than has been obtained in any of the vessels yet built. The matter is still under consideration ; up to the present time no design has been finally approved.

SUMMARY OF NEW CONSTRUCTION.

From the preceding statement it will be seen that in the financial year 1895-96, the following vessels will be under construction :—

In the Dockyards—

Eight first-class battleships.
One first-class cruiser.
Seven second-class cruisers.
Two third-class cruisers.
Four sloops.

In private yards—

Two first-class battleships.
Five first-class cruisers.
Six second-class cruisers.
Forty-five to fifty torpedo boat destroyers (the number being dependent upon the completion of trials).

RECONSTRUCTION AND REPAIRS.

By the end of the present Financial Year the following ships will have been repaired and re-fitted :—

Northumberland.
Rodney.
Imperieuse.
Dreadnought.
Immortalité.
Narcissus.
Blanche.
Sharpshooter.

It was contemplated that the *Monarch* would also be completed in the present Financial Year, but her final completion has been allowed to stand over till a somewhat later date. The *Monarch*, *Sultan*, *Phaeton*, *Comus* and *Cordelia* will be completed during 1895.

DOCKYARD ADMINISTRATION.

The working hours in the Dockyards have been reduced during the past year to an average of forty-eight a week, with the loss of certain privileges, but without a reduction of wages. The new system has not been yet sufficiently tried to enable an opinion to be given whether the output of work has been lessened or not. The first experience of the change has been decidedly favourable, and it is hoped that the reduction in the hours will to a great extent be compensated by the increased efficiency of the labour.

BOILERS AND MACHINERY.

During the year 1894-95 the last of the ships ordered under the Naval Defence Act, viz., five second-class cruisers and four torpedo gunboats, have successfully passed through the official steam trials.

The battleship *Monarch* (which has been supplied with new engines and boilers), six torpedo boat destroyers and several smaller vessels, had also satisfactorily completed their trials by January 1895.

The fitting of new boilers of the Belleville type in the torpedo gunboat *Sharpshooter*, in lieu of her original boilers of locomotive type, has been completed, and they have been tested on board during prolonged trials, with good results. The ship has been attached to the Channel Squadron to obtain further experience of the working of this type of boiler under seagoing conditions.

The *Speedy*, a sister vessel, fitted with Thornycroft boilers capable of being forced under air pressure, has also been employed for a similar purpose. So far, the performances of the boilers of these two ships have been entirely satisfactory, and justify their further use in other ships.

The *Spanker*, a vessel of the same class, is also being fitted with water tube boilers of the Du Temple type, and it is expected that she will be completed before the end of this financial year. It is proposed to substitute for the locomotive boilers of two other vessels of this class a suitable type of water-tube boilers.

The six torpedo boat destroyers referred to above are fitted with water tube boilers. These have proved to be quite satisfactory in their working under extreme tests, and the performance of the machinery in all cases exceeded that which the makers guaranteed.

The Admiralty have desired to encourage the production of water-tube boilers of home design, but the novelty of this class of work to most engineers of this country has somewhat delayed the completion of many of the torpedo boat destroyers during the year. The delay, however, has been attended with the advantage of obtaining much experience. It is proposed to adopt boilers of the water-tube type in the new ships to be laid down in 1895-96.

ARMOUR PLATE EXPERIMENTS AND MANUFACTURE.

During the year various experimental armour plates have been submitted by manufacturers for purposes of test.

None of these, however, has shown qualities equal to those possessed by the Harveyed Steel Armour mentioned in my statement of last year. Consequently, armour of that description has been maintained in use, and the demands made upon the manufacturers during the past year have been very considerable.

The manufacturing firms have shown, as on previous occasions, their readiness to do their utmost to meet the requirements of the Admiralty. It is anticipated that there will be no difficulty in carrying out the orders placed under the New Programme, the area of supply for armour having been somewhat enlarged.

NAVAL ORDNANCE.

The progress of gun manufacture during the year has been satisfactory.

The 12-inch wire guns have been tried with excellent results. Twenty-six of these guns are now either completed or in progress, and it is proposed to commence nineteen more in 1895-96. That number will complete the outfits and reserves of the nine battleships of the *Majestic* class.

The guns of the *Renown*, *Powerful* and *Terrible* are in progress, and will be ready in good time.

The great importance of the quick-firing type of guns has been fully recognised, and the whole of the 6-inch and smaller guns now under construction are on that system.

With the exception of one second-class cruiser on a foreign station, all the ships built under the Naval Defence Act are now armed with these guns.

In October 1893 experiments were commenced with the view of converting the 6-inch, 5-inch, and 4-inch breech-loading guns into quick-firers. These experiments having been carried to a successful issue, the conversion of a large number of guns has been undertaken. These guns will take the place of the ordinary B.L. guns in the battleships and cruisers not already armed with quick-firers.

Notwithstanding the explosion at Waltham Abbey, the production of Cordite for the Navy during 1894-95 will approach 450 tons. Steps have been taken to place orders with the private trade, and thus increase the area of supply.

Cordite has been adopted for the new 12-inch and 9.2-inch guns, as well as for the quick-firing guns, and the reports of its behaviour are very satisfactory.

The Lee-Metford magazine rifle has been supplied to the Royal Marine Divisions, and its issue to the Service afloat will be proceeded with during 1895-96.

The first hydraulic mounting for the new battleships has been practically tested, and the mountings for the *Majestic* and *Magnificent* will be completed in 1895-96.

The electric motors for working the 10-inch guns on board the *Barjœur* have acted well, and give good promise for the future development of that system.

NEW WORKS

In my statement last year I explained the reasons why extensive works connected with docks, harbours, and barracks were required. In carefully going over the proposals which were then sanctioned, some new works, and the extension of others already authorised, have been found to be necessary.

At Portland it is considered necessary to protect the eastern side of the harbour by a permanent breakwater, on the line of the present dolphins, so as to give more complete defence than was provided for by the dolphins, and to afford absolute protection against torpedo boat attack. These dolphins are being completed as originally designed, and will form part of the permanent breakwater.

To obtain similar protection at Gibraltar, it is proposed still further to prolong the mole by an additional 3,200 feet, in the form of a detached mole, and to close the northern entrance of the harbour so formed, either by dolphins and booms, or by a coaling pier for merchant ships, if such should be constructed by the Colony.

As the Downs cannot now be used in time of war as an anchorage for the Fleet, a protected harbour at Dover would be of great service to ships of the Royal Navy; it would also be invaluable as a harbour of refuge for merchant vessels. It is proposed to complete the harbour on the lines of the scheme recommended by the Royal Commission of 1844.

At Hong Kong the present Dockyard is not sufficient for the increasing demands of the Squadron on that distant but important Station.

The proposal to erect naval barracks at Portsmouth is in continuation of the policy carried out at Keyham and Whale Island, and now being acted upon at Chatham. In addition to the better sanitary arrangements, general comfort, and discipline of the men which barracks afford, it is necessary to remove the existing dépôt hulks from the basins and elsewhere where space for berthing seagoing vessels is much required.

It is proposed to meet the outlay for these and certain other permanent works already commenced by a loan.

Annual Bills will be presented to Parliament to provide the money required for the works to be carried out during the year, and in this way the control of Parliament will be effectively maintained over the expenditure.

A Bill, with a schedule of the proposed works, will be presented directly the first Navy Vote has received the sanction of the House of Commons.

It will include provision for work in 1895-96 on all the larger works sanctioned last Session, with the addition of the further works at Portland and Gibraltar.

The Works Vote in the Navy Estimates for the ensuing year has been framed in view of the adoption of this proposal, and does not include money which will be provided by loan.

The Vote is £103,000 less than last year, but a very large additional expenditure will be entailed for many years to come, on account of the works proposed to be carried out by loan. It must be observed that for many years this Vote has been kept extremely low, and if the safety and efficiency of the Fleet are to be maintained these costly works cannot be postponed.

Works in Progress.

The new docks at Portsmouth are being advanced, and are expected to be completed in the course of next year.

At Gibraltar, the extension of the Admiralty mole by 750 feet is being made under contract. The further extension of the mole by 1,600 feet and the construction of the dock are being commenced by local labour under the Admiralty Officers. Under an arrangement with the Treasury, a substantial sum was appropriated for the commencement of the further extension of the mole and of the dock during the current financial year. The necessary plant and material have been ordered and are being shipped to Gibraltar, and arrangements have been made to proceed with the works.

At Portland harbour there has been some unavoidable delay, due to bad weather, in completing the coaling station and the temporary protection of the eastern side of the harbour; but both these services will be completed during the year.

As regards Keyham Dockyard extension, minor contracts have been entered into for certain portions of the work, and a contract will shortly be made for the remainder.

Considerable progress has been made in dredging at Portsmouth, Devonport, and Chatham, and the work is being continued.

Designs have been prepared for the new Naval barracks at Chatham, and as soon as the necessary arrangements have been completed for the additional land required, the work will be commenced. It is further proposed to extend the hospital at Chatham, to meet the requirements of the largely increased number of seamen maintained in reserve at the port.

A contract has been made for the extension of the barracks at the Walmer Marine Dépôt, and the work of enlarging the Engineer Students' College at Keyham will shortly be put in hand.

At Gibraltar and Malta the new works for the storage of ammunition are being carried out by the War Department. The Estimates have been revised to include an additional magazine at Gibraltar and certain additional works at Malta.

New Works in Estimates.

The principal new works to be commenced in the Estimates of 1895-96 are:—

Additional jetties at Portsmouth and Devonport. An extension of the coal store at Malta, to provide for the reserve coal for the Mediterranean Fleet. A new electric shop at Portsmouth, and the widening of the caisson communication between the repairing and rigging basins.

A torpedo range is proposed at Portland, to give the necessary facilities for running and adjusting new torpedoes.

At Malta it has been found necessary to acquire certain lands in the vicinity of the new magazines, and the purchase price has been arrived at by agreement and by arbitration.

The rifle ranges, for which certain provision is made, include Sheerness, Devonport, and Walmer, and additions and alterations will be carried out at Malta and other foreign stations to adapt the existing ranges to the magazine rifle.

The defective water supply at Port Royal, Jamaica, has been much complained of by successive Commanders-in-Chief, and provision will be made this year to meet this want of our Fleet in the West Indies.

MOBILIZATION.

The united crews of ships commissioned for the partial mobilization of 1894 amounted to 9,951, as compared with 9,425 in 1893.

The arrangements for definitely appropriating Petty Officers and men of all ratings to the three Home Ports have now been completed, and the result of the general order that men were to elect the Port Division to which they wished to belong, will form a basis on which the future appropriation of new entries to the ports will be regulated. This will result eventually in each port having its fair proportion of the various ranks and ratings, the want of which has been much felt.

In order to prevent the inconvenience caused by the necessity of sending men round to the other ports to qualify as torpedo men, arrangements are now being made to carry out this instruction at Chatham-Sheerness.

For similar reasons arrangements have also been made for training the Engine Room Artificers in torpedo work at Devonport, with a view to gradually making each port self-supporting.

ROYAL MARINES.

During the past financial year 1,870 recruits have been raised for this Corps, bringing the numbers to within 50 of the increased establishment for which provision was voted.

Notwithstanding these large entries, the class of recruits has been quite up to the average; the height qualifying for admission has been maintained at an average of 5 feet 6 inches, the standard for the past four months for young men under 20 being fixed at 5 feet 7 inches, with the addition of $\frac{1}{2}$ -inch for recruits over that age. The recruits for the Royal Marine Artillery are well above the average, present entries being men of 5 feet 9 inches.

The whole of the Corps on shore have been armed with the Lee-Metford Rifle; the issue of the new arm to the men afloat and on distant Stations will be gradually effected concurrently with the issues made to the Seamen. Ranges suitable for the new arm are as yet available only at Eastney and Browdown, thus necessitating the moving of squads by rail from the other divisions, in order to carry out their practice at these places. It is hoped, however, that the Gravesend range will be made suitable for the Chatham Marines by the early summer.

The new Swimming Bath at Walmer is proving to be of considerable benefit. Formerly it was not possible to teach swimming during the winter and spring months, and the majority of young soldiers completing their drills during that period were embarked without the opportunity of acquiring this art. Since July last, however, swimming has been taught daily, and the result is that very few of the Walmer men leave for service afloat who are unable to swim.

It has been found practicable to dispense with the further training of marines as naval signallers, as there are now a sufficient number of trained seamen signallers, but marines already qualified will continue to be employed.

The services of a Detachment of 75 Officers, Non-Commissioned Officers, and men, Royal Marine Artillery, have been placed at the disposal of the Canadian Government for a period of five years. These men will be employed in conjunction with the Canadian Forces at Esquimalt. The cost of their maintenance will be borne by the Dominion Government.

It is proposed to make a change in the Recruiting Service by gradually substituting retired Officers on consolidated pay for Officers on the Active List. The latter will be of much use in doing duty with the corps, as the establishment of Officers has been only slightly increased to meet the addition made to the men.

With the same object a number of Officers on detached and special work have been seconded and their places filled by additional Officers, who will serve at the Depôts and with their men.

ROYAL NAVAL RESERVE.

The number of Officers who have made themselves efficient by varying periods of service in the Fleet is 283, against 248 at the end of last year.

The lists of Executive Officers are now full, and 104 eligible candidates for entry had to be refused in September last. The Registrar General has since received applications from 102 Officers of the Mercantile Marine for entry into the Royal Naval Reserve. As regards Engineer Officers, the numbers enrolled are close upon those provided for in the Estimates of last year. The further increase of these Officers, as well as a modification in the terms of their engagement, is now under consideration.

Arrangements have been made to enable Officers to obtain a second year's training afloat. Hitherto it has been limited to one year on board a man-of-war.

The first and second class Reserve men are practically up to the full numbers voted. Firemen attracted by the new Regulations issued in 1893 have presented themselves in such numbers that the entry of men has had to be restricted to the very pick of the Mercantile Marine; provision will be made in the coming Estimates to add 400 to the list, which will bring the total number of firemen up to 2,000.

Up to 1889 difficulty was experienced in completing the force of the Royal Naval Reserve men to the number desired, but since then the applicants have been steadily increasing in number. This shows how popular the force has become among the seafaring population of the United Kingdom, and it may be confidently stated that under proper arrangements the force might be largely increased if the necessity should arise.

Provision was again made to embark 500 men for the Naval Manœuvres, and many more than that number volunteered for service. They were embarked in 40 different ships, and, on the whole, good reports were received both as regards conduct and efficiency.

Provision has also again been made for embarking Royal Naval Reserve men for six months' training in the Fleet, and although the conditions of such service have only just been issued, 236 men have volunteered for the training.

A new Royal Naval Reserve drill battery has recently been opened at Renmore, county Galway, and one will shortly be completed at Appledore. It is also under consideration to erect two or three more batteries round the coast of the United Kingdom.

The goodwill of the Shipping Companies and Owners has contributed materially to the steady progress of the Royal Naval Reserve, both as regards Officers and men.

Very encouraging reports are constantly received from the drill ships and batteries as to the efficiency of Royal Naval Reserve Officers and men, and there is much reason to be satisfied with the present condition of the force.

GENERAL.

PAYMENT OF SEAMEN'S ALLOTMENTS.

In consequence of representations of the inconvenience to the wives and relatives of seamen and marines in having to attend at the Dockyards in order to receive the money allotted to them, a Committee, presided over by Lord Farrer, was appointed to visit the principal Naval Ports, and to enquire into the matter.

The Committee recommended that payment of the allotments should be made by means of Post Office Orders payable at the Money Order Office nearest to the residences of the allottees. This recommendation has been adopted and carried out with the co-operation of the Post Office.

The system has worked well, and there is every reason to believe that it has been greatly appreciated by those drawing allotments.

DOCKYARD AND MARINE DIVISION SCHOOLS.

A Committee, under the presidency of Sir Robert Hamilton, was appointed last year to enquire into the present condition of the schools in the Dockyards and at the Royal Marine Divisions.

The Committee arrived at the opinion that the schools established in the Dockyards for the benefit of the apprentices are doing an important public service and should be maintained. Certain recommendations made by the Committee are being carried out.

With reference to the elementary schools at the Royal Marine Divisions, the Committee, while recommending the maintenance of the schools, were of opinion that their conditions should be modified in view of recent legislation in regard to public elementary education. They accordingly suggested various changes for the purpose of bringing the Marine Schools into closer touch with the Education Department. In consequence, arrangements have been made to bring these schools under the inspection of the Committee of Council for Education, and for the payment of a grant in aid of the schools on the same conditions as in public elementary schools.

This will effectually test the efficiency of the education given in these schools, and ensure that the system is maintained in harmony with that of the rest of the country.

The financial result will be a transfer of part of the cost of these schools from Navy to Education Votes.

SHIPS IN COMMISSION.

The number of ships in commission has been slightly increased. For better ensuring the protection of British interests during the hostilities between China and Japan, the China Squadron has been temporarily increased by the first-class cruiser *Edgar* and the second-class cruiser *Spartan*—ordered from the Mediterranean—and by the first-class gunboats *Pigeon* and *Redbreast* from the East Indies.

The place of the *Pigeon* in the East Indies was taken temporarily by the *Bramble* from the Mediterranean, while the latter has been replaced by the *Hebe*.

Of the flag ships abroad, the first-class ironclad *Centurion* has taken the place of the *Imperieuse* in China, the second-class cruiser *Bonaventure* that of the *Boadicea* in the East Indies, and the first-class cruiser *St. George* that of the *Raleigh* at the Cape.

NEW TRAINING SHIP.

A recent examination into recruiting for the Navy has pointed to the desirability of establishing another training ship.

The experimental cruise of the *Northampton* round the coast of Ireland last year attracted a certain number of Irish boys into the Navy.

Following the step taken in 1892, in commissioning the *Caledonia* for the boys entered from Scotland and the North of England, it is contemplated to station a Boys' Training Ship at Queenstown.

This harbour presents decided advantages for the training of boys for the Navy. It is a Naval Station, and, besides having a mild climate, is admirably suited for instruction in boating and sailing.

The details of the proposal are not yet worked out, but I hope before long to be able to announce that the necessary arrangements have been made.

As I have explained elsewhere, the *Northampton* will include Irish ports in her coming cruise round the coasts of the United Kingdom, and thus bring other parts of Ireland into touch with the Naval Training Service.

SPENCER.

NAVY VOTES, 1894-95.

TREASURY MINUTE, dated 23rd March 1895, under Section 4 of the Appropriation Act, 1894 (57 & 58 Vict. c. 59), authorising the temporary application of Surpluses on certain Navy Votes for the Year 1894-95 to meet Excesses on certain other Navy Votes for the same Year.

My Lords have before them a letter from the Admiralty, dated the 18th instant, representing the probable Surpluses and Excesses on the several Navy Votes for the year ending 31st March 1895, and that it would be detrimental to the Public Service to postpone the Expenditure causing those Excesses until provision can be made for it by Parliament in the usual course, and proposing therefore to defray such Excesses, temporarily, out of the Surpluses, viz.:—

VOTE and SERVICE.	EXCESSES over Exchequer Grants.	SURPLUSES of Exchequer Grants temporarily applicable.	CHIEF CAUSES.
VOTE 1:	£.	£.	
Wages, &c., of Officers, Seamen, &c.	- - -	19,700	Numbers of Officers and Men of the Fleet and Coast Guard short-borne, reduced by non-receipt of full estimated Contributions on account of Her Majesty's Ships in Indian Waters, and for use of Her Majesty's Troop Ships on Army Service.
VOTE 2:			
Victualling and Clothing - -	- - - -	81,800	Savings on Provisions and Clothing, chiefly due to Savings in Prices, reduced by non-receipt of full estimated Contribution on account of Her Majesty's Ships in Indian Waters, and anticipated short recoveries of Clothing issued to Seamen.
VOTE 5:			
Educational Services - -	- - -	1,000	Chiefly due to numbers of the Educational Staff of the Fleet being short-borne.
VOTE 7:			
Royal Naval Reserves - -	- - -	3,000	Numbers of Officers for 12 months' training, and men embarked for six months' training, under-borne, reduced by a deficit on Retainers to men, and increase in Numbers of Seamen Pensioners.
VOTE 8:			
Shipbuilding, Repairs, Maintenance, &c.:			
Section I.—Personnel.			
Deficit on Vote - £. 8,765	- - -	- - -	Less expenditure on Wages (Normal Services) at Home and Abroad than was anticipated, and Savings on Salaries.
To be withdrawn from Naval Defence Fund or transferred from Sections II. and III. - - -	- - -	- - -	
31,865	- - -	23,100	
Section II.—Matériel.			
Deficit on Vote - 34,515	- - -	- - -	Smaller receipts than were anticipated for sale of Old Ships and Old Stores, and excesses on Metals (including Armour) and Hemp, &c., reduced by savings on Coals, Paint, &c., and Electrical, Torpedo, and other Apparatus.
Surplus on Naval Defence Act expenditure to be transferred to Section I. - -	- - -	- - -	
3,185	- - -	- - -	
	37,700	—	
Carried forward - £.	37,700	128,600	

VOTE and SERVICE.	EXCESSES over Exchequer Grants.	SURPLUSES of Exchequer Grants temporarily applicable.	CHIEF CAUSES.
Brought forward - -	£. 37,700	£. 128,600	
VOTE 8—continued.			
Section III.—Contract Work	- - -	- - -	Less expenditure on Hulls of Second-class Cruisers and Torpedo Boat Destroyers than was provided for, reduced by larger expenditure on Machinery of Battle Ships and First-class Cruisers and Gun Mountings than was anticipated, and non-receipt of full estimated Contribution on account of Her Majesty's Ships in Indian Waters.
Surplus on Vote - £. 6,390	- - -	- - -	
Surplus on Naval Defence Act expenditure to be transferred to Section I. - - 1,390	- - -	5,000	
VOTE 9:			
Naval Armaments	- - -	- - -	Non-receipt of full estimated Contribution on account of Ships in Indian Waters, and excess on Small Arms and Miscellaneous Services, reduced by savings on Projectiles and Ammunition, and Torpedoes.
Deficit on Vote - 245,772	- - -	- - -	
To be withdrawn from Naval Defence Fund - - 212,172	33,600	-	
VOTE 11:			
Miscellaneous Services - -	24,000	- - -	Deficits arising on Railway Conveyance, Compensation for Damage done by Her Majesty's Ships, Gratuities for Special Services, Suez Canal Dues, Telegraphic Communication, and Compensation to Officers for losses in the expedition against Nanna; also non-receipt of full estimated Contribution on account of Her Majesty's Ships in Indian Waters.
VOTE 12:			
Admiralty Office - - -	- - -	1,000	Surplus on new appointments and vacancies not filled, reduced by increased expenditure on Copyists, &c.
VOTE 13:			
Half and Retired Pay, &c. -	8,400	- - -	Deficit on Gratuities to Officers on Retirement, and non-receipt of full estimated Contribution on account of Her Majesty's Ships in Indian Waters.
VOTE 14:			
Naval Pensions, &c. - - -	10,600	- - -	Non-receipt of full estimated Contribution on account of Her Majesty's Ships in Indian Waters, and excesses on Pensions to Seamen, &c., and for Wounds, reduced by a saving on Compassionate Allowances.
VOTE 15:			
Civil Pensions, &c. - - -	6,000	- - -	Deficit on Superannuation Allowances to Civil Officers and Artificers.
Balances Irrecoverable - -	4,000	- - -	Money embezzled by Paymaster of "Nymphæ." Cash stolen at Jamaica and claims abandoned generally.
TOTAL - - - £.	124,300	134,600	
Net Surplus - £. 10,300.			

Under the powers given to them by Section 4 of the Appropriation Act, 1894, My Lords authorise the temporary defrayment of the foregoing Excesses, amounting to 124,300*l.*, out of Surpluses.

PUBLIC ACCOUNTS (NAVY VOTES).

GREENWICH HOSPITAL AND TRAVERS' FOUNDATION, 1893-94.

REPORT of the COMPTROLLER and AUDITOR GENERAL on the Accounts of the CAPITAL and INCOME of GREENWICH HOSPITAL, for the Year ended 31st March 1894, prepared in pursuance of the Act 28 & 29 Vict. c. 89, ss. 47 & 49; and on the Accounts of the CAPITAL and INCOME of TRAVERS' FOUNDATION, for the Year ended 31st March 1894, prepared in pursuance of the Act 55 & 56 Vict. c. 34.

GREENWICH HOSPITAL.

GENERAL REMARKS.

Increase in the number of Greenwich Hospital Pensions to seamen and others in 1893-94.

1. IT will be observed on reference to page 9 of the Accounts, that the payments in respect of Greenwich Hospital Pensions to seamen and marines, &c., amount to 134,414*l.* in 1893-94, a marked increase upon the payments of 1892-93, which amounted to 123,481*l.* 19*s.* 1*d.* only. This increase is mainly attributable to the greater number of age pensions now granted, owing to the augmentation of Greenwich Hospital Funds, under arrangements referred to in paragraph 84 of Second Report of the Public Accounts Committee, 1894.

CAPITAL ACCOUNT.

Changes in investments in 1893-94.

2. A sum of 120,000*l.* was realised in the year by sales of Consols and of Debentures of the Great Western and Oude and Rohilcund Railways; and a sum of 20,000*l.* was received from the Corporation of West Bromwich in part repayment of a loan.

On the other hand, 121,146*l.* 8*s.* was lent upon mortgage of freehold estates in Glamorganshire (at 3½ per cent.), and 23,038*l.* 6*s.* was invested in the purchase of 23,389*l.* 2*s.* 8*d.* Consols.

Inspection of securities.

3. The securities lodged at the Bank of England which belong to Greenwich Hospital, including the security for the new investment referred to above, have been inspected and verified by officers of my Department.

INCOME ACCOUNT.

Variation of actual income and expenditure from estimate.

4. As will be seen from the statement appended to the Account, page 12, the income realised during the year is slightly below the estimated amount.

									£.	s.	d.
Estimate	-	-	-	-	-	-	-	-	182,468	-	-
Receipts	-	-	-	-	-	-	-	-	181,586	4	10
Difference									£.	881	15 2

This difference is principally caused by a reduction in the dividend of an Indian railway, and by the rents and mining royalties received from the Northern Estates falling short of the anticipated amount.

On the other hand the amount actually spent is less than the estimated expenditure (page 20).

									£.	s.	d.
Estimate	-	-	-	-	-	-	-	-	181,659	-	-
Expenditure	-	-	-	-	-	-	-	-	180,987	2	10
Difference									£.	671	17 2

Expenditure incurred outside the Estimates of the year.

5. The expenditure upon Greenwich Hospital School includes a payment of 20*l.* as a gratuity to a servant on discharge. For this item no provision was made in the Estimates of the year, but it has been sanctioned by the Lords Commissioners of the Admiralty.

TRAVERS' FOUNDATION.

CAPITAL ACCOUNT.

6. A sum of 124*l.* 8*s.* has been received during the year, being the proceeds of sale of the furniture and effects at Travers College, Windsor. The amount of Consols standing to the credit of the Fund remains unaltered.

Receipt of proceeds
of sale and stock
balance.

C. L. Ryan,
Comptroller General of the Receipt and Issue
of Her Majesty's Exchequer, and
Auditor General of Public Accounts.

Treasury, Whitehall, }
30 April 1894. }

E. W. Hamilton,
Accounting Officer.

REPORT of the COMPTROLLER and AUDITOR GENERAL upon the ACCOUNTS prepared under the Provisions of the NAVAL DEFENCE ACTS, 1889 and 1893.

(Prepared and submitted in accordance with Act 52 Vict. c. 8, s. 5.)

ACCOUNTS, 1893-94.

PART I.

*Alteration in the Financial Arrangements as regards the 10,000,000*l.* for Contract Shipbuilding. Purpose I.*

1. THE amount authorised to be spent by the Admiralty under the Naval Defence Act of 1889, on Contract Shipbuilding, was 10,000,000*l.*; and the requirements of that Department as regards funds during the currency of the Act were to be met by an annuity of 1,428,571*l.* 8*s.* 6*d.* charged on the Consolidated Fund for seven years, and by money borrowed on the security of that annuity, interest on any such loans being chargeable to Navy Votes. Annuity representing one-seventh of ten millions discontinued.

Under this arrangement, five instalments of annuity, amounting to 7,142,857*l.* 2*s.* 6*d.*, have been paid over to the Naval Defence Account at the Bank of England, and 3,146,000*l.* has been borrowed, making a total of 10,288,857*l.* 2*s.* 6*d.*

The original enactment, however, was altered by Section 41 of the Finance Act of 1894 (57 & 58 Vict. c. 30), which provided that the instalments of annuity, after the payment of the fifth in 1894 should cease, and that the loans raised in the period ending 31st March 1894, amounting to 3,146,000*l.*, should be repaid out of the Old or New Sinking Fund, interest on the loan being in future met out of the permanent annual charge for the National Debt.

2. The immediate financial result of this change will be seen on page 2 of the Account, where it is explained that the sum of 288,857*l.* 2*s.* 6*d.*, which represents the excess of funds issued to the Naval Defence Account at the Bank of England, beyond the statutory 10,000,000*l.*, was paid back to the Exchequer from that Account on 13th August last; leaving the exact provision of 10,000,000*l.* to be accounted for in connexion with the Contract Shipbuilding operations. Financial effect of the change as noted in Part I. of the Account.

This sum of 288,857*l.* 2*s.* 6*d.* when added to the amount of the two instalments of annuity, 2,857,142*l.* 17*s.* 6*d.*, gives the equivalent of the borrowed moneys.

The transactions thus result, so far as the Admiralty is concerned, in a relief to Navy Votes in respect of charges for interest; the provision for which in 1894-95 amounted to 70,636*l.* No expenditure, however, has taken place out of this Grant, and it will not be issued to the Admiralty from the Exchequer as part of the Grants of the year for Naval Services.

3. Under the terms of Section 2 (8) of the Naval Defence Act, 1889, any surplus remaining out of the 10,000,000*l.*, after the discharge of liabilities in connexion with the Contract Vessels at the end of the seven years during which the annuity ran, was to be paid and applied as part of the New Sinking Fund; but under the altered arrangements any such surplus will now, it is presumed, become payable to the Exchequer at the close of the year 1894-95. Saving on Contract Fund now presumably payable to the Exchequer at close of 1894-95.

Financial position at 31st March 1894, under Purposes II. and III.

4. The arrangement with regard to the funds for Contract Shipbuilding causes the form of Account under Part I. (on page 2) to be only partially adapted to the purpose of showing the balance of funds remaining to be provided under the Act in future. Unrealised Assets at 31st March 1894 now reduced to 909,377*l.*, but this sum only partially required.

In effect, at the close of the 1893-94 Account, the sum of 909,377*l.* remained to be provided out of Navy Votes, 1894-95 (so far as necessary), being 467,377*l.*, and 442,000*l.* for Purposes II. and III. respectively.

It may, however, be added that in 1894-95 the Admiralty did not seek provision to the full extent of the statutory limit under these heads.

Under Purpose II., after allowing for savings in prior years, available for Dockyard Shipbuilding in 1894-95, it was only thought necessary to make a cash provision of 280,933*l.* for final completion of the Building Programme, while under Purpose III. no cash provision was made, as it was anticipated that the savings laid aside in prior years would adequately meet the necessary expenditure on Dockyard Armaments in 1894-95.

Purpose I.—*Building and Completing Vessels by Contract, and the Armament thereof.*

Unexpended
Balance of the ten
millions at 31st
March 1894.

5. The total cumulative expenditure on Purpose I. up to the 31st March 1894 was 9,974,308*l.* 0*s.* 10*d.*, leaving only 25,691*l.* 19*s.* 2*d.* unexpended out of the statutory provision of 10,000,000*l.*

Expenditure on
Purpose I. in
1893–94.

6. During the year 1893–94 it was anticipated that 538,355*l.* would be spent on the building of Contract Ships, but payments to the extent of 661,704*l.* 2*s.* 6*d.* matured and were made.

Building.

The amount now remaining available for building is 22,257*l.* 12*s.* 2*d.*

The estimated expenditure on the Armament of Contract Ships in 1893–94 was 346,390*l.*, and 368,987*l.* 14*s.* 3*d.* was actually spent.

Armament.

A sum of 3,434*l.* 7*s.* only is now available for the Armament Stores of Contract Ships in 1894–95.

The expenditure upon Contract Armament still remains unappropriated in 1893–94, but steps are being taken by the Admiralty to bring about a final and satisfactory allocation at the close of 1894–95.

Purpose II.—*Dockyard Shipbuilding, including the Completion, &c., in the Dockyards of Contract Vessels.*

Progress in Dock-
yard Shipbuilding,
&c., in 1893–94.

7. The net sum available for Dockyard Shipbuilding of the New Programme in 1893–94 (besides 79,440*l.*, savings of prior years) was 1,325,898*l.*, the proportion of the statutory provision required for Old Programme Vessels now completed being 5,674*l.* only in 1893–94.

The actual expenditure on New Programme Vessels in 1893–94 amounts to 1,398,203*l.*, and the excess has been met out of the savings of prior years above mentioned, leaving a margin of accumulated savings for use in the last year of the Act to the amount of 7,135*l.*

Revised Estimates
for Dockyard
Vessels under
Treasury Letter,
16th April 1894.

8. The Account for the year under review gives the further revised Estimates, for the building, &c., of the several Dockyard Vessels, which were sanctioned by the Treasury on 16th April 1894, as explained in evidence before the Public Accounts Committee 1894 (Q. 1489, &c.).

The aggregate Estimate, which showed an anticipated expenditure of 9,719,351*l.* in 1892–93, now stands at 9,813,711*l.*, leaving an unappropriated balance of the statutory provision to the amount of 186,289*l.*

Expenditure prior
to 1st April 1889,
now charged to
Naval Defence
Funds.

9. The expenditure upon Dockyard Vessels of the New Programme prior to 1st April 1889, to the amount of 47,861*l.*, has now been embodied in the charges against the Vessels concerned, in the manner indicated in paragraph 7 of my Report last year.

Torpedo and Steam
Boats now charged
to their respective
vessels.

10. The expenditure upon Torpedo and Steam Boats, which heretofore has been separately shown in the Accounts, has now been merged in the cost of the vessels to which they respectively belong.

Purpose III.—*Armament of Dockyard Vessels.*

Expenditure on
Dockyard Arma-
ments in 1893–94,
and diminished
aggregate
Estimate.

11. A sum of 458,000*l.* was provided in Navy Estimates, 1893–94, under Vote 9, for the Armament of Dockyard Vessels; and in addition to this sum there was 183,794*l.* 2*s.* 4*d.* available out of the savings under this head in prior years.

The expenditure in 1893–94 only amounted to 402,622*l.* 2*s.* 4*d.*, leaving 239,172*l.* for expenditure in the closing year of the Act, 1894–95.

The statutory provision for this Service was 2,850,000*l.*; but the anticipated requirements were cut down, and in 1892–93 the total Estimate for the Armament of Dockyard Vessels stood at 2,536,346*l.*

It will be noticed that this Estimate is again reduced in 1893–94, and that the total anticipated expenditure now finally stands at 2,408,000*l.*

GENERAL REMARKS.

Progress in regard to Contract and Dockyard Vessels in the Five Years ended 31st March 1894.

Contract Vessels
nearly completed.
Dockyard Vessels
more in arrear.

12. It was provided by Sect. 1 (2) of the Naval Defence Act of 1889, that the Contract and Dockyard Vessels should “so far as is practicable” be completed for sea before the 1st day of April 1894.

This date was, however, extended by Sect. 1 (2) of the amending Act of 1893, to 1st April 1895.

As regards Contract Vessels, the earlier date has been kept except in the cases of four ships :—

Her Majesty's Ship	"Royal Oak,"
"	"St. George,"
"	"Theseus,"
"	"Sybille."

The Dockyard Ships, however, are more in arrear, there being only 16 out of 38 completed at 31st March 1894.

Comparison of Cost results as between Vessels built by Contract and in Her Majesty's Dockyards.

13. A sufficient number of Vessels of similar types, built by Contract and in Her Majesty's Dockyards respectively, have now been completed to enable some comparison to be instituted between the two sets of cost results. There may be many disturbing elements of detail that remain to be considered; but it seems to me not undesirable to give prominence to aggregate cost, when for the first time a standard—imperfect though it may be—appears to be available by which to test the working results of Her Majesty's Dockyards; and I have accordingly caused a Table to be extracted from an Appendix in the Expense Accounts (pages 196–197) which contrasts the respective figures under the different types.

This statement will be found appended.

The figures in the Expense Accounts have been adopted for this purpose, inasmuch as they appear to present the fairest basis for comparison, including as they do on both sides a levy for Incidental Expenses in connexion with Building, which has no place in the Naval Defence Account in consequence of such indirect expenditure not being chargeable under the Act to Naval Defence Funds.

The comparative results show that Dockyard Shipbuilding is more favourable in the case of First Class Battleships; but not so economical, so far as can be judged by aggregate cost, under the other types, while it is noticeable that Dockyard results under the same types vary considerably *inter se*.

I have called the attention of the Admiralty to these facts, with a view to any explanation being afforded that their Lordships may think it desirable to offer.

Ships taken over from Contractors prior to Completion of Contract Work on Shipbuilding.

14. In order to expedite the delivery of certain Vessels building by Contract, and for other important reasons, it was found desirable by the Admiralty to carry out certain work provided for in the Contracts at Her Majesty's Dockyards, and some difficulty was experienced by the Admiralty in arriving at equitable adjustments of account with the Contractors in respect of unfinished parts.

The difficulty in question arose from the following causes:—"Firstly, the price of the transferred work is merged in the general contract price, and, therefore cannot be identified; secondly, the work carried out in the Dockyards has differed in some respects from that provided for in the specifications; and, thirdly, the contractors have objected to pay more than they state they could have done the work for in their own Yards, in strict conformity with specifications, with the Staff, plant, and machinery used for the general construction of the ships."

It has not, then, been possible to charge Contractors with the full cost of the work executed in Her Majesty's Dockyards; and it became necessary to consider in what manner the difference between the actual cost of the work done in the Dockyards and the abatement from Contract price should be dealt with.

The Admiralty finally proposed to the Treasury that Purpose I. should bear charges up to the extent of the abatements from Contractors, any differences being treated and charged as part of the cost of "Completing" under Purpose II.: to this arrangement the Treasury have assented.

The result of this agreement will be to throw upon the Dockyard Shipbuilding Fund (Purpose II., "Completing," &c.) charges that do not clearly fall within its scope; and I have inquired of the Admiralty whether the statement showing the financial effect of the earlier delivery of the Vessels in an incomplete condition (referred to in the last paragraph of the Admiralty Letter of 3rd of March 1894) has been prepared.

In reply I have been informed that the matter is still unsettled, as "questions have arisen between the Admiralty and Contractors in regard to some of the ships which are at present *sub judice*."

The extent, therefore, to which Purpose II. is charged with expenditure, not strictly pertaining to it, cannot yet be stated.

Work sufficiently advanced to enable Contract and Dockyard results in shipbuilding to be contrasted.

Purpose II. charged with expenditure, not strictly pertaining to it, under special circumstances.

"Ramillies"
"Royal Oak"
"Resolution"
"Revenge"
"Endymion"
"Gibraltar"
"Grafton"
"St. George"
"Theseus."

C. L. Ryan,
Comptroller General of the Receipt and Issue
of Her Majesty's Exchequer, and
Auditor General of Public Accounts.

Exchequer and Audit Department,
21 February 1895.
